- Grants/low-interest pre-construction loans for up to \$1 million
- Design and engineering scope for Riverside Avenue, Gateway Park, and Pacific Avenue design support for Complete Streets
- Requires Board adoption of Greenhouse Gas Policy
- Ardurra to support grant writing; UDDA ARPA grant to fund
- **Proposed MOTION:** To establish a UD Greenhouse Gas Policy in alignment with the City of Spokane's adopted policy numbers 15.05.020 and 15.05.060

3:55 Public Comment and Adjourn – *Dugger*

2023 UDPDA Meetings (3:30 PM start in 2023)

- September 6 Annual Meeting - Providence
- December 13 – Bouten Construction

University District Public Development Authority (UDPDA) Minutes - DRAFT **Wednesday, May 10, 2023, from 3:34 – 4:16 PM, In-Person at Avista Corp and via Teams**

Board Members Present: Council President Breean Beggs, Teresa Dugger, Steve MacDonald, Lindsey Myhre, Katy Sheehan (via Teams), Juliet Sinisterra, and Amber Waldref (via Teams)

Board Members Absent: none

Call to Order, Welcome, and Administrative Actions

Dugger called the meeting to order at 3:35 PM and thanked Avista for hosting. Dugger then asked for a **MOTION to approve the UDPDA financials as of March 31, 2023, and the March 1 and April 13, 2023, UDPDA board meeting minutes** (MacDonald) and seconded (Myhre) and passed unanimously. Myhre provided a 2023 Q1 Treasurer's Report highlighting financial activity, contractual obligations, and variances vs proforma budget.

Nominating Committee (NC) Preview

Dugger alerted the group that in June the board will be asked to approve the 2023 NC (the mayor, council president, Sinisterra, Dugger, and Wagner) who will meet over the summer and prepare the 2024 UDPDA officer slate as well as make recommendations for vacant board seats, if any.

400-Block Update

Sinisterra shared that a kick-off conversation with the Emerald Initiative team took place on May 2. With the understanding that the UDPDA is willing to contribute up to \$5M for the project and noting the significant changes in construction costs since their proposal was submitted, the Emerald team plans to refine their concept and cost analysis. The DC plans to review Emerald's updated feasibility analysis at their June 13 meeting.

201 W Main Avenue Update

Sinisterra recapped the Development Committee's (DC) recent review of feasibility data to redevelop the UDPDA's 201 W Main property as a multi-story performance/ maker space with 76 workforce housing units. Given construction costs, financing challenges, deed restrictions (Hume to research use terms), and the inability to date to secure the neighboring property, the DC recommends leasing (vs selling) 201 W Main until more favorable outcomes can be achieved. At the same time, the DC suggests continuing to research more profitable building configurations and financing options like grants and equity partnerships. Sinisterra suggested that if the space is not leased by October (when the UD's Ignite building office lease expires), the UD will consider moving into the 201 W Main space.

Contract Update and Proposed Motion

Sinisterra reported that two proposals were received for the Ecological Asset and Performance Standards Study IRFP. After evaluation, Greene Economics was selected and a kick-off meeting is scheduled for May 18 and includes a feedback session with higher ed partners. Sinisterra noted that the final scope calls for \$10K more than the \$65K budgeted, but that the additional work is vital to inform the Business and Development Plan and to pave the way for applications related to large federal nature-based infrastructure grants. After a brief discussion, Dugger asked for a **MOTION**

**UNIVERSITY
DISTRICT**

to approve an additional \$10K for the Ecological Asset and Performance Standards Study (Myhre), seconded (MacDonald), and passed unanimously.

Dugger asked for public comment and hearing none, she reminded the group that the next meeting is June 7 at GSI and she adjourned the meeting at 4:16 PM.

Title 15 Environmental Stewardship

Chapter 15.05 Climate Change

Section 15.05.020 Greenhouse Gas Emissions Reduction Goals

- A. Consistent with its municipal powers under Washington State Law and RCW 70A.45.020, it is the goal of the City of Spokane to reduce anthropogenic GHG emissions created by any activities within the boundaries of the City of Spokane from 2016 baseline levels to 1,159,838 metric tons CO₂e or 45% below 2016 levels by 2030; 632,639 metric tons CO₂e or 70% below 2016 levels by 2040; and 105,440 metric tons CO₂e and net zero emissions by the year 2050
- B. It is the intent of the City Council to keep the City of Spokane's GHG emissions reduction goals aligned with the Washington State reduction goals and the highest quality scientific evidence such as that presented by the Intergovernmental Panel on Climate Change and the National Climate Assessment.
- C. Consistent with SMC 15.05.060, the City shall calculate and publicly publish the GHG emissions created by activities from within the City of Spokane boundaries at least every three years and provide a detailed report examining progress toward achieving the City's GHG emission reduction goals to the City Council and the public. In calculating GHG emission reductions, the City shall account for emission reductions that results from, including but not limited to, policies implemented and enforced by the State of Washington and the United States, along with measures undertaken pursuant to City ordinances and policies to reduce emissions.
- D. Consistent with SMC 04.36 and based on the recommendation of the Sustainability Action Subcommittee, at least every three years the Mayor and the City Council will review the latest scientific recommendations from the Intergovernmental Panel on Climate Change and the National Climate Assessment in order to determine whether to modify its GHG emission reduction goals to best align it with the latest scientific research.

Title 15 Environmental Stewardship

Chapter 15.05 Climate Change

Section 15.05.060 Climate Action Progress Reports

- A. The City shall provide a progress report on the 100% renewable energy and greenhouse gas emissions reduction goals every three years and a comprehensive report that includes reductions to date and the status of reaching the established targets every three years.
- B. If the City of Spokane is not reaching the 100% renewable energy or greenhouse gas emissions reduction goals, the City shall conduct an analysis of strategies and actions to get the City on track to meet the adopted climate goals. These strategies and actions shall be evaluated to ensure they do not disproportionately burden low-income families, include community-wide investment, and are prioritizing equitable implementation.
- C. The Sustainability Action Plan shall be updated every three years in the year following the publication of the greenhouse gas emissions report to reflect the necessary actions to achieve the City's adopted climate goals with specific consideration for the most impacted populations.
